TRAILER TOWING GOES WIRELESS

We all know what a hassle it is to feed the cable from your tow ball all the way to the back of the trailer. Suitable for most agricultural applications our latest wireless system offers a swift and simple alternative: utilising a standard 12N plug fitted with a wireless transmitter, it pairs to the two rechargeable light clusters that magnetically mount to the rear of your trailer.

With an impressive 30 metre range and 8 hours running time, you are good to go and go!

Part number : AVS-WTK1

- ECE: R7/R6
- EMC :R10
- IP65
- Progressive indicator signal/stop/tail & number plate illumination
- Rubber coated heavy duty magnets
- 12 volt only (Input voltage DC 2.5v)
