

IMPROVE VISIBILITY AND ELIMINATE BLIND SPOTS

The popular M926CE mirror is widely used in many applications.

A standard part at OEM level it's also widely used in the aftermarket because of its universal fitment. The main lens complies with class II requirements and the lower, wide angle lens, meets class IV requirements.

Heated versions, 12v & 24v, are both available and the M925CEH has the added benefit of being power adjustable. Cables and switches for all variants are widely available.

E11 II III & IV 048173
